Mr. Gary Baughman  
Hazardous Waste Facilities Unit Leader  
Colorado Department of Health  
4300 Cherry Creek Drive South  
Denver, Colorado 80222-1530

Gentlemen:

Enclosed for your review are proposals for streamlining current IAG activities for Operable Unit 7 (OU-7), Present Landfill, and Operable Unit 11 (OU-11), West Spray Field. The intent of both proposals is to streamline the current IAG schedules which would result in a more efficient, cost effective strategy for final disposition of both OUs without impacting the ability to assess risk from these OUs to human health and the environment. An additional advantage of this would be the elimination of some IAG Table 6 milestones as well as accelerating many of the others.

Maximum optimization of these proposals is dependent upon implementation of these strategies as soon as possible. Your timely review and comment on the attached proposals will create the opportunity to maximize the potential benefits from both. DOE will schedule meetings between the IAG signatories to formalize scope and deliverable dates as soon as an agreement to implement these strategies is received.

If you have any questions please call R. H. Birk of my staff at 966-5921 or digital pager 966-4000/3600.

Sincerely,

  
James K. Hartman  
Assistant Manager for Transition  
and Environmental Restoration
